

Côte d'Ivoire ranking in the Global Innovation Index 2024

Côte d'Ivoire ranks **112nd** among the 133 economies featured in the GII 2024.

The Global Innovation Index (GII) ranks world economies according to their innovation capabilities. Consisting of roughly 80 indicators, grouped into innovation inputs and outputs, the GII aims to capture the multi-dimensional facets of innovation.

Côte d'Ivoire ranks **26th** among the 38 lower-middle-income group economies.

Côte d'Ivoire ranks **11th** among the 27 economies in Sub-Saharan Africa.

> Côte d'Ivoire GII Ranking (2020-2024)

The table shows the rankings of Côte d'Ivoire over the past four years. Data availability and changes to the GII model framework influence year-on-year comparisons of the GII rankings. The statistical confidence interval for the ranking of Côte d'Ivoire in the GII 2024 is between ranks 109 and 123.

Year	GII Position	Innovation Inputs	Innovation Outputs
2020	112nd	105th	115th
2021	114th	107th	121st
2022	109th	109th	106th
2023	112nd	112nd	102nd
2024	112nd	111st	107th

Côte d'Ivoire performs better in innovation outputs than innovation inputs in 2024.

This year Côte d'Ivoire ranks 111st in innovation inputs. This position is higher than last year.

Côte d'Ivoire ranks 107th in innovation outputs. This position is lower than last year.

Côte d'Ivoire has no clusters in the top 100 S&T clusters of the Global Innovation Index.

Global Innovation Index 2024

> Global Innovation Tracker

The Global Innovation Tracker 2024 shows what is the current state of innovation in Côte d'Ivoire, how rapidly is technology being embraced and what are the resulting societal impacts.

For Côte d'Ivoire, 4 indicators have improved in the short-term and 4 indicators have worsened.

Science and innovation investment

Scientific publications	R&D investments	Venture capital		International patent filings
		Deal numbers	Deal values	
▼ -0.2% 2022 - 2023	n/a	0% 2022 - 2023	▼ -94.6% 2022 - 2023	▼ -100% 2022 - 2023
▲ 8.3% 2013 - 2023	n/a	n/a	n/a	▼ -100% 2013 - 2023

Technology adoption

Safe sanitation	Connectivity		Robots	Electric vehicles
	Fixed broadband	5G		
▲ 1.6% 2021 - 2022	▲ 10.8% 2021 - 2022	n/a	n/a	n/a
▲ 2.3% 2012 - 2022	▲ 20.5% 2012 - 2022		n/a	n/a
17.3 per 100 inhabitants in 2022	1.4 per 100 inhabitants in 2022	n/a		n/a

Socioeconomic impact

Labor productivity	Life expectancy	Temperature change
▲ 2.9% 2022 - 2023	▲ 0.5% 2021 - 2022	▲ 1.8°C 2023
▲ 3.5% 2013 - 2023	▲ 0.5% 2012 - 2022	n/a
18,938 USD in 2023	58.9 years in 2022	

Notes: Not all indicators of the Global Innovation Tracker are used to calculate the Global Innovation Index. Long-term annual growth refers to the compound annual growth rate (CAGR) over the indicated period. For each variable, a one-year growth rate is set for the short run, and ten-year CAGR is set for the long run; time windows might differ when gaps exist in data availability. The end period corresponds to the most recent available observation, which may differ among countries. Temperature change is an exception: it indicates the change in degrees Celsius with respect to the average temperature in the country from 1951–1980. Figures are rounded.

Expected vs. observed innovation performance

The bubble chart below shows the relationship between income levels (GDP per capita) and innovation performance (GII score). The trend line gives an indication of the expected innovation performance according to income level. Economies appearing above the trend line are performing better than expected and those below are performing below expectations.

Relative to GDP, Côte d'Ivoire's performance is below expectations for its level of development.

> Innovation overperformers relative to their economic development

Effectively translating innovation investments into innovation outputs

The chart below shows the relationship between innovation inputs and innovation outputs. Economies above the line are effectively translating costly innovation investments into more and higher-quality outputs.

Côte d'Ivoire produces less innovation outputs relative to its level of innovation investments.

> Relationship between innovation inputs and outputs

Overview of Côte d'Ivoire's rankings in the seven areas of the GII in 2024

The chart shows the ranking for each of the seven areas that the GII comprises. The strongest areas for Côte d'Ivoire are those that rank above the GII (shown in blue) and the weakest are those that rank below.

Highest rankings

Côte d'Ivoire ranks highest in Institutions (69th), Infrastructure, Business sophistication (98th) and Creative outputs (100th).

Lowest rankings

Côte d'Ivoire ranks lowest in Human capital and research (129th), Knowledge and technology outputs (128th) and Market sophistication (126th).

The full WIPO Intellectual Property Statistics profile for Côte d'Ivoire can be found on [this link](#).

Benchmark of Côte d'Ivoire against other economy groupings for each of the seven areas of the GII Index

The charts shows the relative position of Côte d'Ivoire (blue bar) against other economy groupings (grey bars), for each of the seven areas of the GII Index.

Lower-Middle-Income economies

Côte d'Ivoire performs above the lower-middle-income group average in Institutions.

Sub-Saharan Africa

Côte d'Ivoire performs above the regional average in Institutions, Infrastructure, Business sophistication, Creative outputs.

Innovation strengths and weaknesses in Côte d'Ivoire

The table below gives an overview of the indicator strengths and weaknesses of Côte d'Ivoire in the GII 2024.

Côte d'Ivoire's main innovation strengths are **Labor productivity growth, %** (rank 18), **ICT services imports, % total trade** (rank 20) and **Loans from microfinance institutions, % GDP** (rank 27).

Strengths

Rank	Code	Indicator name
18	6.2.1	Labor productivity growth, %
20	5.3.3	ICT services imports, % total trade
27	4.1.3	Loans from microfinance institutions, % GDP
36	3.2.3	Gross capital formation, % GDP
41	3.3.1	GDP/unit of energy use
48	1.3.1	Policy stability for doing business [†]
49	5.2.3	State of cluster development [†]
55	5.2.2	University-industry R&D collaboration [†]
62	7.1.3	Global brand value, top 5,000, % GDP
72	4.3.3	Domestic market scale, bn PPP\$

Weaknesses

Rank	Code	Indicator name
129	5.2.1	Public Research-Industry co-publications, %
126	6.2.3	Software spending, % GDP
120	7.3.3	Mobile app creation/bn PPP\$ GDP
118	6.3.2	Production and export complexity
102	5.2.5	Patent families/bn PPP\$ GDP
99	6.1.2	PCT patents by origin/bn PPP\$ GDP
75	2.3.4	QS university ranking, top 3*
74	6.1.3	Utility models by origin/bn PPP\$ GDP
49	6.2.2	Unicorn valuation, % GDP
41	2.3.3	Global corporate R&D investors, top 3, mn USD

Côte d'Ivoire's innovation system

As far as practicable, the plots below present unscaled indicator data.

> Innovation inputs in Côte d'Ivoire

2.1.1 Expenditure on education

was equal to 3.52 % GDP in 2022, up by 0.15 percentage points from the year prior – and equivalent to an indicator rank of 90.

2.3.2 Gross expenditure on R&D

was equal to 0.07 % GDP in 2016 – and equivalent to an indicator rank of 107.

2.3.4 QS university ranking

was equal to an average score of 0 for the top three universities in 2023 with no change from the year prior – and equivalent to an indicator rank of 75.

4.2.4 VC received, value

was equal to 800 USD in 2023, down by 94.62% from the year prior – and equivalent to an indicator rank of 87.

5.1.1 Knowledge-intensive employment

was equal to 7.1 % in 2019, down by 3.18 percentage points from the year prior – and equivalent to an indicator rank of 115.

Global Innovation Index 2024

> Innovation outputs in Côte d'Ivoire

6.1.1 Patents by origin

was equal to 33 patents in 2022, down by 19.51% from the year prior – and equivalent to an indicator rank of 101.

6.2.2 Unicorn valuation

was equal to 0 % GDP in 2024 with no change from the year prior – and equivalent to an indicator rank of 49.

6.3.2 Production and export complexity

was equal to a score of -1.55 in 2021, down by 37.17% from the year prior – and equivalent to an indicator rank of 118.

6.3.3 High-tech exports

was equal to 60.91 million USD in 2022, up by 4.32% from the year prior – and equivalent to an indicator rank of 100.

7.1.1 Intangible asset intensity

was equal to 35.86 % for the top 15 companies in 2022 with no change from the year prior – and equivalent to an indicator rank of 63.

7.1.3 Global brand value

was equal to 421.49 million USD for the brands in the top 5,000 in 2024, up by 10.73% from the year prior – and equivalent to an indicator rank of 62.

7.3.3 Mobile app creation

was equal to 316.66 thousand global downloads of mobile apps in 2023, up by 59.11% from the year prior – and equivalent to an indicator rank of 120.

Côte d'Ivoire's innovation top performers

7.1.1 Top 15 intangible-asset intensive companies in Côte d'Ivoire

Rank	Firm	Intensity, %
1	COMPAGNIE IVOIRIENNE D'ELECTRICITE	51.58
2	SOCIETE DE LIMONADERIES ET BRASSERIES D'AFRIQUE SA	16.83
3	SOCIETE D ETUDES ET DE TRAVAUX POUR L AFRIQUE DE L OUEST	48.25

Global Innovation Index 2024

About the Global Innovation Index

- The Global Innovation Index (GII) is published by the World Intellectual Property Organization (WIPO), a specialized agency of the United Nations.
- Recognizing that innovation is a key driver of economic development, the GII aims to provide an innovation ranking and rich analysis referencing around 130 economies. Over the last decade, the GII has established itself as both a leading reference on innovation and a “tool for action” for economies that incorporate the GII into their innovation agendas.

The Index is a ranking of the innovation capabilities and results of world economies. It measures innovation based on criteria that include institutions, human capital and research, infrastructure, credit, investment, linkages; the creation, absorption and diffusion of knowledge; and creative outputs.

The GII has two sub-indices: the Innovation Input Sub-Index and the Innovation Output Sub-Index, and seven pillars, each consisting of three sub-pillars.
